SBA-CERTIFIED SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS · EVALUATION ONLY, NEVER REMEDIATION

The deadline. The HHS rule at 45 CFR Part 84 requires WCAG 2.1 Level AA for web content, mobile apps, and electronic documents. Recipients with 15 or more employees by **May 11, 2027**; fewer than 15 by **May 10, 2028**. Billing Medicare or Medicaid makes an organization a recipient, which brings the rule to nearly every provider.

A veteran-owned consultancy that tells a health center or health system how many patient-facing documents it actually has, which ones the rule reaches, and what to do with each. The deliverable is a count and a prioritized list, not a repair invoice. Delivered by the principal, a U.S. Navy veteran who founded and led three enterprise AI, data and analytics practices.

Who we serve: hospitals, health systems, community health centers, and other HHS-funded providers.

CORE COMPETENCIES

- **Baseline Patient-Facing Document Inventory**. Every document across the organization's web properties and clinic microsites probed for tags, language, headings, table headers, alt text and title, checked against veraPDF for PDF/UA-1, and sorted by whether a patient uses it to apply for, access, or take part in a program. Deliverable: a count, a remediation specification a vendor can bid against, and a dated record.
- **Accessibility Conformance Report**. All 50 WCAG 2.1 Level A and AA criteria evaluated on the public site, each marked and evidenced, in VPAT 2.5 format, dated and signed.
- **Annual Re-Inventory**. Re-crawl, re-probe, and a delta against the prior baseline. A count taken once was true once.
- **Program Support**. Accessibility statement, grievance path, procurement language requiring an ACR before purchase, and content governance so new material stops regressing.

DIFFERENTIATORS

- **The legacy-document exemption is narrower than it reads**. It stops at any document used to apply for, access, or take part in a program. Intake, consent, financial assistance and portal documents stay in scope regardless of age.
- **Evaluation only, never the remediation**. A conformance claim written by whoever built or repaired the product is self-assessment. Staying out of the repair is what lets the report mean something, and it gives a remediation vendor a specification to bid against.
- **A tagged PDF is not a conforming PDF**. Most checkers ask whether tags exist. Documents here are validated against ISO PDF/UA with veraPDF and read for headings, table headers and alt text, which is what an auto-tag pass leaves behind.
- **The report says what it did not check**. Reading order, meaningful alt text and focus order are decided by a person and recorded; an unanswered criterion reports as Not Evaluated, never as Supports.
- **No product to sell**. No overlay, no platform license, no per-page remediation quota. The recommendation follows the finding.

PAST PERFORMANCE

- **Brian Beals, LLC (brianbeals.com)**: the firm's own site, 34 pages and 6 documents, evaluated against all 50 WCAG 2.1 A and AA criteria. Every document validated against PDF/UA-1 with veraPDF; remediated to conformance, with no criterion at Partially Supports or Does Not Support. Accessibility Conformance Report in VPAT 2.5 format, re-evaluated October 11, 2026 with scripted and by-ear screen reader testing, published at brianbeals.com/conformance-report.html.
- **Purpose-built evaluation tooling**: an assessment engine pairing automated rule checks with the ones automation misses (320-pixel reflow, dark-scheme contrast, skip links that do not move focus), a document reader that walks the tag tree, and veraPDF on every document, reported as WCAG criteria. A regression suite runs against pages encoding known defects.
- **Principal**: Brian Beals, U.S. Navy veteran (Electronics Technician). Founded and led three enterprise AI, data and analytics practices from a standing start, running readiness assessments, data and AI governance work, and multi-year technology roadmaps with executive teams. Builds the tooling used here: the evaluation engine, a federal and state opportunities monitor, and scheduled data pipelines on GitHub Actions.

COMPANY DATA

UEI	NJLEHNAQATJ6
CAGE	22XM3
DUNS	14-756-2650
Founded	2026 · Florida
Location	Punta Gorda, FL
Structure	Single-member LLC

HOW TO BUY

Purchase	Purchase order, under purchasing limits
SAM.gov	Active · UEI, CAGE
SBA	SDVOSB · 08/2026 – 08/2029
Florida	VBE certified

NAICS & UNSPSC
