MARYLAND-CERTIFIED VSBE VB26-100715 · SBA-CERTIFIED SDVOSB

Two obligations, one body of evidence. Under State Finance & Procurement §3.5-311 the Nonvisual Access clause goes into every IFB, RFP and contract for new or upgraded ICT, the vendor warrants nonvisual access at bid, and DoIT reviews conformance within 18 months of award. Separately, ADA Title II requires WCAG 2.1 Level AA by **April 26, 2027** for entities serving 50,000 or more and **April 26, 2028** for smaller entities.

A veteran-owned consultancy that establishes where an agency or a prime stands against Maryland's nonvisual access requirement and the Title II deadline, then says what to fix first. The deliverable is an Accessibility Conformance Report: every WCAG 2.1 Level A and AA criterion marked and evidenced, dated and signed. Delivered by the principal, a U.S. Navy veteran who founded and led three enterprise AI, data and analytics practices.

Who we serve: Maryland state agencies, counties, and colleges, and the primes and CATS+ masters bidding to them.

CORE COMPETENCIES

- **Nonvisual Access Conformance Evidence**. Independent evaluation of a deliverable against COMAR 14.33.02 and WCAG 2.1 AA, producing the evidence a contractor needs when DoIT reviews conformance within 18 months of award.
- **Title II Readiness Assessment**. Automated scanning plus manual testing with keyboard and screen reader against WCAG 2.1 AA. Deliverable: an ACR in VPAT 2.5 format, a prioritized roadmap, and a one-page summary for a board or budget request. Two to four weeks.
- **Document Inventory & Triage**. Catalog every PDF and document across the agency's web properties and classify each: retire, replace, remediate, or leave. Deliverable: a scoped work order a remediation vendor can bid against.
- **Program & Policy Setup**. Accessibility statement, coordinator designation, grievance procedure, procurement language requiring a VPAT or ACR before purchase, and content governance.

DIFFERENTIATORS

- **Maryland's requirement is older and stricter**. The nonvisual access warranty has been in state IT contracts since 2005 and carries a post-award review. Teams that plan only for the 2027 ADA date are planning for the later of the two obligations.
- **Evaluation only, never the remediation**. A conformance claim written by whoever built or repaired the product is self-assessment. Staying out of the repair is what lets the report mean something, and it gives a remediation vendor a specification to bid against.
- **A tagged PDF is not a conforming PDF**. Most checkers ask whether tags exist. Documents here are validated against ISO PDF/UA with veraPDF and read for headings, table headers and alt text, which is what an auto-tag pass leaves behind.
- **The report says what it did not check**. Reading order, meaningful alt text and focus order are decided by a person and recorded; an unanswered criterion reports as Not Evaluated, never as Supports.
- **Set-aside vehicle**. Certified VSBE, so participation counts against the statewide VSBE goal and the VSBE subcontract goals written into task orders.

PAST PERFORMANCE

- **Brian Beals, LLC (brianbeals.com)**: the firm's own site, 34 pages and 6 documents, evaluated against all 50 WCAG 2.1 A and AA criteria. Every document validated against PDF/UA-1 with veraPDF; remediated to conformance, with no criterion at Partially Supports or Does Not Support. Accessibility Conformance Report in VPAT 2.5 format, re-evaluated October 11, 2026 with scripted and by-ear screen reader testing, published at brianbeals.com/conformance-report.html.
- **Purpose-built evaluation tooling**: automated rule checks plus four the scanner has no rule for (reflow at a true 320-pixel viewport, both color schemes, live-region preconditions, focus under a real Tab press), documents read through their tag tree and validated with veraPDF. A regression suite runs against pages encoding known defects.
- **22 Florida public entities**: verified and sampled across four counties, producing per-entity findings mapped to specific success criteria, with third-party widget defects attributed to the vendor so no agency is handed a finding it cannot act on.
- **Principal**: Brian Beals, U.S. Navy veteran (Electronics Technician). Founded and led three enterprise AI, data and analytics practices from a standing start, running readiness assessments, data and AI governance work, and multi-year technology roadmaps with executive teams. Builds the tooling used here: the evaluation engine, a federal and state opportunities monitor, and scheduled data pipelines on GitHub Actions.

COMPANY DATA

UEI	NJLEHNAQATJ6
CAGE	22XM3
Founded	2026 · Florida LLC
Delivery	Remote; on-site in Maryland as needed
Structure	Single-member LLC

HOW TO BUY

Purchase	Small procurement, under agency limits
eMMA	Vendor SUP1105247
VSBE	VB26-100715 · to 08/2029
CSB	SB26-100712
SAM.gov	Active · UEI, CAGE
SBA	SDVOSB

Certified Veteran-Owned Small Business Enterprise (MD Office of Small, Minority & Women Business Affairs)

CATS+ FIT

FA 2	Web & Internet Systems
FA 10	IT Mgmt Consulting
Posture	Subcontract to a master

STANDARDS APPLIED

Maryland NVA	COMAR 14.33.02
NVA Clause	COMAR 21.05.08.05
Statute	SF&P §3.5-311
WCAG	2.1 Level AA
ADA Rule	28 CFR Part 35
